Master Gardener Volunteer Program

Florida Master Gardeners are University of Florida-trained volunteer teachers. Master Gardeners educate and provide research-based information to Floridians about gardening, America's most popular pastime. Their information about planning and maintaining urban, suburban, and rural landscapes always emphasizes environmental stewardship.

The Master Gardener Program is a major outreach that assists Extension in significant horticultural educational efforts in the community. Master Gardener volunteers provide much of the first contact through Plant Clinics, Plant Lifelines, and other educational programming.
